

NHS WIRRAL CCG

FOI Post Operative & Neuro Rehab

I would like to understand about the CCG's commissioning of rehabilitation services for post-operative and neurorehab purposes (excluding outpatient services). Could you provide information on the following:

1. Spend and volume of patients receiving rehab services for:
 - a. Post-operative (or post-acute) rehab in care homes, step-down facilities, community hospitals etc.
 - b. Neurorehab in neurorehab facilities, care homes, community hospitals etc.

Care is identified as 'Treatment / Rehabilitation'. Unfortunately, we are unable to split between Post Op and Neurorehab.

The Total Spend in 2018/19 on Treatment/Rehabilitation was £13,250,497

Activity is not available in full as some information is block value

2. A list (and if possible, spend) of providers (care homes, step-down facilities, neurorehab hospitals and community hospitals) which have been commissioned to provide rehab services (excluding outpatient) for:
 - a. Post-operative (or post-acute rehab)
 - b. Neurorehab

Care is identified as 'Treatment / Rehabilitation'. Unfortunately, we are unable to split between Post Op and Neurorehab.

The split of 2018/19 Spend across Provider is as follows:

Royal Liverpool- Community Rehab	12,013	Block Contract	
Wirral University Hospital- Neuro Rehab Unit	1,394,401	Block Contract
